# A. Different. Venture

Taking learning beyond classroom setting, we thoughtfully weave in life-long values, skills and lessons through our outdoor and adventurous activities like hike, kayaking and survival camps. We help youths develop tenacity and be willing to take risks and then realize how much more can be achieved when they dare to take that step of faith.

We go beyond an ordinary sport training, play session or just learning a new sport. We aim to inculcate in participant a healthy self-esteem and the ability to break out of their perceived limitations.
